

For Teachers

At StarDisc we're not that keen on telling people what age they should be to enjoy different activities, but we recognise that KS banding is helpful to pick your way among suggested activities. We've put puzzle answers on a separate page, so you can use wordsearches and number puzzles in the classroom. Broadly, we recommend the following – and we welcome your feedback about the downloads, activities and suggested ages.

KS1:

Animal Antics Wordsearch: Animal constellation names in English

ArtStars: StarDisc art ideas

Multiversal Chaos: Spot and count the aliens

StarMaths Counting: Count the numbers of stars in different constellations

StarPlay: Ideas for games to play at StarDisc, including literacy-related games

StarThinker: Imagine and draw, paint or write about other possible worlds, planets and life forms

KS2:

Astonishing Astronomy: Mind-boggling facts

ArtStars: StarDisc art ideas

Constellations Wordsearch: Comes with a supporting fact sheet

Heavenly Bodies Wordsearch: Comes with a supporting fact sheet

How Big is Time?: 2 simple experiments about time and the size of the Universe

Multiversal Chaos: Spot and count the aliens

StarMaths – Number Puzzles: Count the numbers of stars in different constellations and do constellation calculations

StarThinker: Imagine and draw, paint or write about other possible worlds, planets and life forms

StarWords: Glossary of space terms

We Are StarDust: Everything which exists has been part of a star. Imagine, draw or write about other life forms

KS2-3:

Astonishing Astronomy: Wordsearch: with facts

Famous Astronomers: Facts about famous astronomers
